Call for Articles

BATS invites submission of articles or information from which a report can be written by BCI. Feature articles are needed from 1500 to 3000 words in length, and other articles from 500 to 1000 words. Please inquire with proposed subject matter and submit a short outline. Brief reports and updates also are needed. Those who are active in bat research, conservation or education projects are encouraged to send reports of their work. Final copy deadlines are 90 days in advance of publication on the first of December, March, June and September.

All articles in this issue:
