Tell A Friend

A significant portion of our members hear about Bat Conservation International through our current members. Please share your enthusiasm for protecting bats and their habitats with your friends and associates. The back of your membership renewal card is designed for referrals. You can use it to list the names and addresses of anyone you would like to be sent a packet of information about bats and BCI. And, of course, feel free to pass on your issue of *BATS* and your BCI catalogue. They're perfect ways for sharing your interest about bats with a friend.
