

Researcher Archives

BCI's North American Bat House Research Project gathered data on bat-house design and use from 1993 to 2003 and reported the results in The Bat House Researcher newsletter. The final edition of the newsletter describes the project and the results of that decade of bat-house research. It is available below (in PDF format).

[Final Edition.](#)

Contents:

A Decade of Bat House Discovery. Kiser, Mark and Selena. 2004.
